

# Ziscuit Allow for Grocery Comparison Shopping

By Ezra Schneier

When consumers buy anything, it is always smart to compare the prices offered by different stores. With groceries, this has been challenging. It requires visits to different locations. And prices change frequently.

Ziscuit is a grocery search engine that uses technology to make comparison shopping easy.

- ☐ A shopper enters their shopping list in Ziscuit web site.
- ☐ The best prices are automatically displayed
- ☐ The user can select how far they would like to travel and the number of stops they prefer.

It is that easy. Ziscuit brings significant savings to consumers. With grocery prices surging, the time is right to give Ziscuit a try. Don't risk it.... Just Ziscuit
